Study title: An impact assessment of awareness levels on HIV and STIs among college students in Puducherry, Union Territory.

Training of trainers (Phase 2)

Date: 07.10.2022

Venue: PACS-seminar hall

Participants: 36

Time:10 am to 2 pm

S.No.	Topic	Time	Faculty
1.	Introduction	10 -10.30 am	Dr. Reenaa Mohan(AP)
2.	HIV, Way of teans, its prevention and risky behaviour	10.30-11.30 am	Dr. Reenaa Mohan(AP)
Break (30min)			
3.	STI, mode of transmission, risky behaviour and prevention	12-1 pm	Dr. Pravin. S (AP)
Lunch			

On Behalf of Department of Community Medicine, Sri Manakula Vinayagar Medical College and Hospital in collaboration with Pondicherry AIDS Control Society conducted training of trainers program for Red Ribbon Club coordinators in various colleges, Puducherry and Karaikal on 07/10/2022. The Program started around 10.00 am and around 36RCC coordinators participated in the training program. A Brief introduction about the program and welcoming the RCC coordinators was done by Dr.Chitra Devi (Project Director, PACS). DrReenaamohan (AP) explained the purpose of the study in detail. Followed by HIV, Way of teans, its prevention and risky behaviour were elaborated. After break, Dr.Pravin (AP) explained about STI, its mode of transmission, risky behaviour and prevention modality to the RCC coordinators. Videos

Summary of the event

World heart day 2022 celebrations organised by the department of Cardiology and General Medicine in the month of September.

Theme of this year : Use heart for every heart

Following programmes were conducted

1. A health awareness programme was organised in Rural Health Training Centre SMVMCH-Thiruvennainallur on 22.09.2022 in which Dr. Ashida T.S, Associate Professor of Cardiology gave a health talk on Heart attack- prevention and treatment
   Target population : around 50 NCD patients benefitted from the talk
   The talk focused on the importance of risk factor , screening and modification and early treatment of myocardial infarction. There was active participation from the patients and doubts were cleared

2. Heart disease screening campaign was organized in SMVMCH courtyard from 26.09.2022 to 30.09.2022
   Target population: Patient and patients attending SMVMCH OPD and IP and Hospital Staff
   Data was collected using a structured proforma. Blood sugar, lipid profile, ECG & ECHO was done at a subsidised rate
   10 year/Life time ASCVD risk was calculated and appropriate advice and treatment given
   Around 45 patients benefitted from programme
   Post graduate students, Senior residents of general medicine screened the patients. All patients had consultation with cardiologist Dr. Ashida.

3. Health Awareness programme on Coronary Artery Disease (CAD) was conducted in SMVMCH in collaboration with the staff and students of AHS from 28.09.2022 to 30.09.2022
   Charts were used to explain the risk factors for CAD, investigations for CAD and various treatment modalities for CAD. A shot film made by students highlighting hazards of smoking and CVD prevention was displayed for the public.
   The programme benefitted patients, patient attenders, hospital staff and students.

World Diabetes day 2022

World diabetes day 2022, was conducted on 9,10,11th of November 22, with the goal 'If not now, when'? – The theme of the year being 'Educate for a better tomorrow ' A diabetic screening camp was conducted on all the 3days , with screening for complication of diabetes mellitus. Post graduate students of General Medicine along with the faculty conducted the camp. All the patients with diabetes mellitus , attending the OPD, were screened for complications of Diabetes mellitus the patients were tested for glycemic control , renal , cardiac , retinal and renal complications for a very nominal charge of Rs. 550/-

Seventy four patients were benefited by this camp

The following complications were identified.

Complication	Number
Retinopathy	5
HT Retinopathy	3
Nephropathy	2
Neuropathy	17
Diabetic dyslipidemia	3
Newly detected HT	2
Cataract	1
Hypothyroidism	3
HbAIC > 7	6

All the patients with complications identified were educated and referred for specialist consultation.

A program called **'Dia educate'** was conducted on 9-11-2022 for the patients with diabetes. Around 30 patients along with care takes attended the peer education program. The faculty of Medicine along with post graduate students discussed with the patients answering the questions and building up confidence and need for self care. Three patients who helped to educate were presented a glucometer, for their personal care.

On 9-11-2022, ' **A village Walk** ' was organized Post graduate medical students along with nursing students and students of Allied Health Science. The students who Participated in the walk, carried placards , raising slogans and distributing information brochure to the public on the way.

A Quiz called **'Diabolic 2022'** for medical students was conducted. Around 83 teams participated in the preliminary level and 5 teams were selected for final quiz which was conducted on 11-11-2022. Three top winning teams were selected.

The screening camp also had education given by nursing students on food options and 'Care of the foot '.

Post graduate students of Ophthalmology contributed for the screening of retinopathy'.

Students of Allied Health Sciences helped in taking ECG, WHM, Medicine interns helped in screening for Neuropathy. There was a corner for students depicting 'history of diabetes' .

A feedback was obtained from patients on the program at the end of screening camp.

World Diabetes Day

According to the World Health Organization, diabetes is a chronic, global health problem. In 2016, an estimated 1.6 million people died from diabetes, making it the eighth leading cause of death. The number of people with diabetes is now estimated to affect more than 422 million people worldwide. Diabetes is a major cause of cardiovascular disease, blindness, kidney failure, and lower limb amputation. There is no cure for diabetes, but it can be managed through lifestyle changes and medication. The program was conducted with this backdrop. World Diabetes Day awareness program was conducted by Department of Community Medicine on 14-11-2022 from10.00 am-12.30 pm. Around 50 people actively participated in the program. A Speech was delivered by Dr. Priyanga. D about Introduction and theme of world diabetes day. Clinical features was explained by Dr.Sri ram (CRMI) . Complications was explained by Dr. Surya (CRMI). Diabetic diet was explained by Dr. Sumitha (CRMI) and speech on Diabetic foot care was given by Dr. Subpiksha (CRMI). Demonstration of diabetic foot care was done by Dr.Siva shankar(CRMI) .We concluded the session by distributing black chana to the participants. Random blood sugar was tested for around 20 symptomatic patients. Ophthalmic screening was also done by Dr.Indhuja for patients who had symptoms. Feedback given by the participants are discussed and action has been taken.

World Diabetes Day

Type 2 diabetes, which accounts for about 90% of all cases, is generally associated with older age, obesity, family history of diabetes, previous history of gestational diabetes, impaired glucose metabolism, and physical inactivity. The key to managing diabetes is to keep blood sugar levels under control. This can be done through a healthy diet, regular exercise, weight control, and, if necessary, medication. Our program covered these aspects of management of diabetes .World Diabetes day awareness program was conducted by Department of Community Medicine in collaboration with urban primary health center on 16-11-2022 from 10.30 am-12.30 pm. Around 40 people actively participated in the program. Introduction was given by Mrs.Deivasundari(MSW).Theme of world diabetes day 2022 , cause of diabetes and a note on gestational diabetes was explained by Dr. Priyanga (PG). Clinical features was explained by Dr.Sri ram (CRMI) . Complications was explained by Dr. Surya (CRMI). Diabetic diet was explained by Dr. Sumitha (CRMI) and speech on Diabetic foot care was given by Dr. Subpiksha (CRMI). We concluded the session by distributing black chana to the participants. CARDIOLOGY AND GENERAL MEDICINE

"WORLD HEART DAY 2022 CELEBRATION"

Theme of this year: "Use heart for every heart"

Following programmes were conducted

1. A health awareness programme was organised in Rural Health Training Centre SMVMCH-Thiruvennainallur on 22.09.2022 in which Dr. Ashida T.S, Associate Professor of Cardiology gave a health talk on Heart attack- prevention and treatment
   Target population: around 50 NCD patients benefitted from the talk
   The talk focused on the importance of risk factor, screening and modification and early treatment of myocardial infarction. There was active participation from the patients and doubts were cleared

2. Heart disease screening campaign was organized in SMVMCH courtyard from 26.09.2022 to 30.09.2022
   Target population: Patient and patients attending SMVMCH OPD and IP and Hospital Staff
   Data was collected using a structured proforma. Blood sugar, lipid profile, ECG & ECHO was done at a subsidised rate
   10 year/Life time ASCVD risk was calculated and appropriate advice and treatment given
   Around 45 patients benefitted from programme
   Post graduate students, senior residents of general medicine screened the patients. All patients had consultation with cardiologist Dr. Ashida.

3. Health Awareness programme on Coronary Artery Disease (CAD) was conducted in SMVMCH in collaboration with the staff and students of AHS from 28.09.2022 to 30.09.2022
   Charts were used to explain the risk factors for CAD, investigations for CAD and various treatment modalities for CAD. A shot film made by students highlighting hazards of smoking and CVD prevention was displayed for the public.
   The programme benefitted patients, patient attenders, hospital staff and students.

4. A guest lecture was organized on 29.09.2022
   Target audience- UG & PG medical students, students of AHS nursing staff faculty.
   Guest Speaker- Dr. M.Chenniappan senior Consultant Cardiologist, Emeritus Professor, Tamilnadu MG.R Medial University, Ramakrishna Medical Centre Trichy.
   Welcome address and introduction of World Heart Day 2022 Theme was given by Dr. T.S.Ashida Associate Professor of Cardiology

Dr. KAGNE. R.N

15th Year celebrations

22.04.2021

DEPARTMENT OF OTORHINOLARYNGOLOGY

WORLD VOICE DAY- April 16, 2021 celebrations

As a part of 15th Year celebrations of our institution, we celebrated World Voice Day- 2021 (April 16) with an "**Online Voice Celebration Event for Kids"**. It was organized for children less than 12 years, keeping in mind the present situation of pandemic and to nurture singing talent among children and to create awareness about the voice care among general public.

A Social Media page (Facebook Page) was created and a short singing video of kids was invited, to be posted on the page from April 1st- April 15th 2021.

Highlights of the event:

- 122 kids actively participated in this event ranging from 2.4 yrs to 12 years of age
- Participations from various parts of India like Karnataka, Tamilnadu, Pondicherry, Kerala, Rajasthan, Madhyapradesh, Andhrapradesh, Himachal Pradesh etc and also from various parts of the world like USA, UK, Switzerland and Australia.
- An overwhelming moment for us to receive a singing participation from a special child suffering from Down's Syndrome from Madhyapradesh.
- A child playback singer and winner of various Pan-India singing reality shows, Baby. Prakruthi Reddy, from Karnataka also extended her support to our event by sending one of her most popular singing videos.
- The posts on the page has reached more than 28,000 people and the event page received 311 likes, and 334 followers over a period of 15 days.
- Feedbacks were obtained from the parents of the participants. E-Certificates were issued to all the participants.

"WORLD HEARING DAY"

On the eve of world hearing day March3rd 2021, various community oriented programmes were organized by the Dept. of ENT and Head & Neck surgery, Sri Manakula Vinayagar Medical College & Hospital.

On March 1st 2021, Free hearing screening camp was organized at Rural Health and Training Center, Thiruvennainallur and hearing screening and counselling was offered for rural patients.

On March 2nd 2021, free hearing screening and special hearing investigations like Pure Tone audiometry were done for the public, drivers and people in high risk group like diabetics and aged above 55 years at ENT OPD and more than 300 people were benefitted.

On March 3rd Shri. M. Dhanasekaran, Chairman & MD of Sri Manakula Vinayagar Education Trust, inaugurated the Vertigo clinic and delivered the presidential address in the august presence of Dr. D. Rajagovindan, Director, Dr. RN Kagne, Deputy Director, Dr. K. Karthikeyan, Dean Academic, Dr. M. Pragash, Medical superintendent, Dr. S. Girija & Dr. M. Jayashree, Deputy Medical Superintendents, Mr. T. Dhatchinamurthy, Registrar. In his address he highlighted that facilities like Vestibular Evoked Myogenic Potential (VEMP), Electronystagmogram (ENG), Brain Stem Evoked Response (BERA) are available under one roof for first time in private Medical College in Puducherry and requested the public to make use of Vertigo Clinic.

He also stressed the need for early detection of hard of hearing among children and early intervention to prevent incapacitating deafness which will lead to impediment of educational career and social well being of young generation. He also recalled that for every new born child in SMVMCH, Oto acoustic emission has been done as a screening procedure to detect congenital deafness and if needed BERA is also done as a confirmatory test. And soon, he hoped that the institution will be capable of doing cochlear implants and rehabilitate the affected children.

Welcome address was given by Professor Dr. Mariappan Rajagopal, HOD, Department of ENT & Head and Neck Surgery. Prizes for undergraduate students participated and excelled in the quiz programme arranged in the eve of World Hearing day, were distributed by Dr. D. Rajagovindan Director and Dr. R.N. Kagne Deputy Director. Vote of thanks was offered by Dr. K. Santhanakrishnan , Associate Professor, Dept. of ENT & Head and Neck surgery.

NATIONAL DENTIST DAY 2021

DAY CELEBRATIONS: REPORT

As a part of 15th year celebration of our institution, we celebrated National Dentist day by conducting free Dental Screening & Treatment (filling) camp for all the Staff Nurses & ANM's of our institution on 06.03.2021from 9.00am to 1.00pm in our Dental OPD. Around 51 dental restorations have been done. Oral hygiene kit was given as a compliment to all the staff nurses & ANM's after dental screening. We thank the Management, Administrators and Paramedical staffs for their support which made this event a grand success.

WORLD DIABETES DAY- 2021

WORLD DIABETES DAY – 2021 was conducted on 15, 16,17Th of November 2021, with the theme of 'Access to diabetes care'. The theme was divided into patient care education and treatment, student's corner and risk assessment. Patient care areas concentrated on screening for complication, diabetes control, nephropathy retinopathy and CV risk assessment. Forty eight patients were benefited by this activity 'Know your risk' was on a list of check questionnaire administered to the non-diabetic population and if found to be at high risk, were recommended for a complete checkup and advised on life style modification. 'Diabetes walk' the health care professions walked through the street of Madagadipet, raising slogans on the awareness on diabetes. A talk show was conducted to the adolescent children of Bharatha Devi school, Madagadipet by the Postgraduate students of General Medicine. A quiz programme-'Diabolic 2021'was conducted on 10th to 12th Nov-2021 for the UG students a competition on infographic "DM- #diagraphics- 2021" was conducted. A selfie corner was a motivational area to beat diabetes. Feedback from the participants was also obtained.

"ROENTGEN DAY CELEBRATION - 2021"

Department of Radio-Diagnosis celebrated world radiography day on 08.11.2021 which was organized by Dr. A. Umamageswari, Professor& HOD of Radio-Diagnosis. Dr.R.Rajagovindan Director SMVMC&H , Dr.K.Karthikeyan Dean Academics and Dr.M.Pragash Medical Superindent SMVMC&H were Lightening the lamp. Radiography students prepared a wide range of posters& chart works on various topics in radiology. They made a wonderful Rangoli dedicated to the world radiography day. Their efforts and enthusiasm in various preparations of this celebration had made this event a great success. Department of Radio-Diagnosis had also organized an "Inter College Quiz" for Radio-Diagnosis postgraduates" on 06.11.2021. The competition was held in the MIT auditorium. All over Tamilnadu and Pondicherry postgraduate participated.SriManakulaVinayagar medical College &Hospital won the quiz and JIPMER being the runners. Surprisequiz was also conducted for the audience and BSc Radiography students. Surprise gifts were given to those who answered correctly.

The father of Radiology:

German scientist Wilhelm Conrad Roentgen completed his entire discovery of X-radiation on 8 November in 1895. To honour the scientist, who also won the Nobel Prize in physics in 1901 for discovering X-rays, the day is observed as world radiography day.

Theme:

This year's theme is INTERVENTIONAL RADIOLOGY- active care for the patient. The theme aims at inviting everyone to celebrate the essential role that interventional radiology plays in treating patients.

Significance:

World Radiography Day is observed to raise awareness about the ways in which radiology contributes to patient care and understanding the role that radiologists and radiological technologists play in improving healthcare. World Radiography Day also points at how X-rays,MRI &CT scans help in diagnosis and early treatment of diseases.

CIRCULAR

Sub: DD (FW&MCH) - Observation of "Vasectomy Fortnight 2021" - Reg.

It is to state that Family Planning Division, Ministry of Health & Family Welfare, Government of India, has decided to observe "Vasectomy Fortnight" from 21.11.2021 to 04.12.2021.

The theme of vasectomy fortnight would be

"Purushon ne parivar niyojan apnaya,
sukhi parivar ka adhar banaya"

"Men adopting family planning
lay the foundation of a happy family

" ஆண்கள் குடும்பக்கட்டுப்பாடு செயவதன் மூலம்
நல்லதொரு குடும்பத்திற்ககான அடித்தளம் அமைக்கலாம் "

You are requested to create wide awareness among public through Client meetings (Male participants), Self Help Groups meeting & Anganwadi workers meetings in your Centers. Concerned Health Staffs can be motivated to create awareness in the community to identify the acceptors and bring them to the respective health facility for vasectomy.

Looking forward to your active support and participation in generating awareness through various IEC activities and mobilizing clients for Family Planning Section during the fortnight and make it a great success. You are also requested to send the number of NSV cases and details done during the Vasectomy Fortnight (Report format enclosed).

All activities are to be carried out strictly following social distancing norms and COVID appropriate behavior.

Mucormycosis Screening Camp for Post COVID patients

Report

We have conducted a free **"Mucormycosis Screening Camp for Post COVID patients"** at Sri Manakula Vinayagar Medical College and Hospital on 31.05.2021, 1.06.2021 and 2.06.2021 from 9.00 am to 12 noon. We prepared a detailed, unique screening form consisting of COVID history, co-morbidities, Steroid therapy, events during hospitalization (people under long standing oxygen therapy, prolonged ICU stays, people under mechanical ventilation) along with oral, ophthalmic and ENT examination (Performa was attached below) We personally telephoned around 590 patients who were admitted in our institution for COVID management for the past 3months.Out of which 82 patients reported for screening. We have only called patients who have completed atleast 30 days from the date of tested positive. No evident signs and symptoms of Mucormycosis (Black Fungus) was detected in screened patients. COVID protocols were strictly followed during the camp proceedings. Detailed explanation of signs and symptoms of Mucormycosis was given to all the patients and was advised to report if they have any of those symptoms in future. We thank the Government of Puducherry, our management and administrators for providing the permission and opportunity to conduct the camp successfully.

Title: Energy Conservation Day

Date: 10.12.2021

Objectives:

- To understand the importance of energy conservation day
- To inculcate the habit of energy conservation
- To take the pledge on energy conservation day

Theme

'Azadika Amrit Mahotsav: Energy Efficient India"

'Azadika Amrit Mahotsav: Cleaner Planet'

Speaker details: Dr. Pravin, Assistant Professor, Department of Community Medicine, SMVMCH

Participant details: Faculty, staffs and students

Number of participants: 32

Key Outcomes: Pledge on energy conservation day was taken and students were motivated to understand the importance of energy conservation

ENERGY CONSERVATION DAY OATH

On this National energy conservation day, we pledge our whole hearted commitment towards energy conservation in our daily lives.

I pledge to take part in the energy conservation campaign and energy reduction challenges of our office, and in our surroundings. I vow towards making energy conservation an integral part of our life. I agree to make sincere efforts to change my behaviours to reduce the energy usage. I promise to switch off the light and appliances when not in use, I will use energy efficient products, I will switch to renewable resources like solar energy and I will use water wisely.

So, once again, let us all pledge to use energy judiciously in everyday life, ensure zero wastage and spread awareness about the importance of energy conservation for a healthy environment and sustainable future.

Awareness about vasectomy among self-help group reproductive women

Date: 27.11.2021

Place: L.R.Palayam

Conducted by: Dr. Reenaa Mohan (AP), Dr. Subalakshmi. S (PG), Mrs. Devasundari (MSW)

On behalf of Sri Manakula Vinayagar Medical College and Hospital, Department of Community Medicine conducted an awareness program about vasectomy among self-help group reproductive aged women in L.R.palayam village. Around 15-20 women participated in the program. Consent was obtained from all the women before doing audio transcript. Initially the participants were asked to share their opinion about male sterilization by Dr.Reenaa mohan. They mentioned about it is not practically possible because male need to go for work and should earn to run the family, they should lift heavy weight, if they do vasectomy their sexual desire will get reduced, social stigma. Then Dr.Subalakshmi explained about advantages of doing vasectomy in detail in their own language. It is a simple day-care non-invasive procedure, minimal bleeding, can perform their routine works a day after surgery. Mrs.Devasundari advised women to communicate the information to others in the village and motivate them. At end of the program their doubts were cleared.

Awareness about vasectomy among self-help group reproductive women

Date: 29.12.2021

Place: Sinthamani,Villupuram district

Conducted by: Dr.Subalakshmi.S(PG)

Mrs.Devasundari(MSW)

On behalf of Sri Manakula Vinayagar Medical College and Hospital, Department of Community Medicine-Urban Health Training Centre (UHTC) conducted an awareness program about vasectomy among self-help group reproductive aged women in sinthamani village, villupuram. Around 10-15 women participated in the program. Consent was obtained from all the women before doing audio transcript. Initially the participants were asked to share their opinion about male sterilization. They mentioned about it is not practically possible because male need to go for work and should earn to run the family, they should lift heavy weight, if they do vasectomy their sexual desire will get reduced, social stigma. Then Dr.Subalakshmi explained about advantages of doing vasectomy in detail in their own language. It is a simple day-care non-invasive procedure, minimal bleeding, can perform their routine works a day after surgery. Mrs.Devasundari advised women to communicate the information to others in the village and motivate them. At end of the program their doubts were cleared.

DEPARTMENT OF ORTHOPAEDICS

The Department of Orthopaedics conducted the 'Ortho Quiz 2021' event on 23.03.2021 at SMVMCH, Puducherry. With the auspicious inauguration of the event by our Medical Superintendent, Dr. M. Pragash, the event was spectacularly conducted by Assistant Professors Dr. Probin Joseph and Dr. Naveenkumar K.

The 'Ortho Quiz 2021' was highly informative and useful for both students and interns. The faculties, also shared their profound knowledge and rich experience. The programme happened to be an eye opener for the students and also gave them an intrinsic exposure to Orthopaedics, theoretically and clinically.

We express our immense gratitude to everyone for making this programme a grand success!

DEPARTMENT OF ORTHOPAEDICS

The Department of Orthopaedics conducted the 'Free BMD Camp' event on World Osteoporosis day which was on 21.10.2021 at SMVMCH, Puducherry. With the auspicious inauguration of the event by our Medical Superintendent, Dr. M. Pragash, the event was conducted by Dr. Latchoumibady, the head of the department.

The 'Free BMD camp' was of much use to the general public and old age population in creating awareness about the significance of Osteoporosis and how early diagnosis can help in preventing pathological fractures. Bone mineral density of around 150-200 people more than 40 years old and post-menopausal women, who visited OPD on that day was assessed using a BMD machine. The camp made the patients contended due to its novelty in this setup.

We express our immense gratitude to everyone for making this camp a grand success!

Date: 22.7.2021

Place: Kullanchavadi and Kudiyamanallur PHC

As per the scheduled order, I went and monitored the vaccination session block in Kullanchavadi PHC under Kurinjipadi block on 22.07.2021. And the feedbacks are:

1. Kullanchavadi PHC

- There is no separate room available for waiting and observation purposes for before and after vaccination.
- Social distancing is not maintained in a proper manner.
- No drinking water facility available. Staff nurse is not sanitizing after vaccinating each person and there is no sanitizer found at the vaccination site.
- There is no separate vaccination area for people aged above 18-45 and more than 45 years.
- Vaccinated people are being observed for 30 mins.
- AEFI kit is available in the vaccination area. Ice packs are in the proper state. There is no pre-loading of the vaccine found.
- Hub cutter is available at the vaccination site.
- Waste is not being disposed of as per guidelines of bio-medical waste management and there are no disposal bins found at the vaccination site.
- IEC material is displaced regarding the awareness of covid vaccination. Around 1839 got vaccinated of the total population of which 63 are pregnant women and 30 are postnatal women.

Breastfeeding health education for Nursing Students in UHTC- *26th August 2019:*

Topic: Breastfeeding health education

Venue: Urban Health Training Center (UHTC), Villupuram

Date: 26/8/19

Time: 10.00 am – 12.00 pm

Conducted by: PGs, Interns and MSW

As a part of our UHTC activities, we planned and executed a training program on practical skills to aid breastfeeding practices for the students and staffs of Tara Nursing Institute. Importance of Breastfeeding, harmful effects of Formula feeding, common problems faced during breastfeeding and alternate methods of feeding was explained by Dr. Nancy (Postgraduate) using posters and flipbooks. An active demonstration on the breastfeeding positions, holds and latching was done by Mrs. Jayanthi (Medical Social Worker).An awareness speech about the importance of males and workplace in enabling breastfeeding was given by Mr. Irusappan (Health Inspector). Finally, in order to evaluate the effectiveness of our session we conducted a small quiz on breastfeeding practices and we also clarified the doubts of the audience. Other participants of the session were Medical Interns and Mrs. Rathinamala (ANM).

Awareness on Obesity followed by exposure visit to Nehru Yuva Kendra centre, Villupuram- ***23 January 2019.***

As a part of our UHTC activities, we made an exposure visit to Nehru Yuva Kendra centre, Villupuram on 23 January 2019. On this day, we interacted with the NSV (National Service Volunteer) around 10 to 12 NSV were presented during the discussion. Each NSV explained about the role in their village block. They also explained how they will form the youth club and self help groups in each block of the village they represent. Sports and other activities include women education, employment were conducted by the NSV in respective villages. They also involved in government activities and provide knowledge about the schemes to the village people and help them to benefit the people. They help to organize the medical camps and functions related to youth in their villages. The information including hierarchy of the postings was also obtained. This exposure visit was arranged by Mr. Jayaraman (MSW). This visit includes Postgraduate and medical interns who interacted with the NSV during the visit.

Awareness on Leprosy followed by exposure visit to District Leprosy Centre – Villupuram GH (1/3/19)

As a part of our UHTC activities, we made an exposure visit to District leprosy centre, Villupuram GH. On this day, we interacted with the Deputy Director Dr. Kavitha Rani, Medical social worker, and other staffs working there. We had collected information regarding the structure, staffs, patient's information, counselling and treatment. Brief session was taken by Dr. Kavitha Rani on how to identify the patients with leprosy, clinical symptoms (lesion were shown with the help of affected patients) We interacted with the patients and asked about the treatment compliance and the struggle they face during the course of treatment. Lab technician also briefed us about how to take slit skin smear. We also obtained information from the staffs how they handle the patients during the course of the treatment. It was good learning experience for PG, Interns, ANM, MSW especially case discussion part and we were also given training module. This exposure visit was arranged and organized by MSW.

Awareness program on Health seeking behaviour through Rural Mobile Clinic:

Among the most visible activities of RHTC, is 'Rural Mobile Clinic' (RMC) in the villages. During these clinics, Primary care for minor ailments is provided at village level. It is conducted from Tuesday to Friday (four days) during the morning hours on fixed days in the village. We have selected four villages within ten kilometre area. It is run by a team of medical interns, Social worker and nursing staff. No user fee is charged for the service. It provides an entry point for other health promotive and preventive activities in the village. It is an opportunity to build-up contact and faith among the villagers and to develop better understanding of the community among the staff of RHTC. It offers an opportunity to medical interns to educate patients in their social environment.

Objectives:

1. To ensure access to Primary health care to the villagers at their doorstep.
2. To ensure interaction of medical interns and postgraduate students with the local community.

Days and village name for Rural Mobile Clinic

Weekday	**Name of the village**
Tuesday	Kirimedu
Wednesday	Chithilingamadam
Thursday	Periyasevalai

As a part of the activities at our Urban Health Training Center (UHTC), Villupuram, we planned to observe **World Cancer day** based on theme **"I can and I will".**

The program was conducted in VIDHYODAYA TEACHER TRAINING INSTITUTION. More than 150 participants were present, among them 130 were training students and 20 were teaching staffs. speech was given by Dr. Reenaa Mohan (PG) and Dr. Adish (CRRI) The health education was given by PG based on the theme – **"I can and I will**" to identify cancer at early stage and early treatment initiation and to eliminate cancer. Important of primordial prevention (identify High Risk group) was emphasized. CRRI gave speech on common cancer in male- Lung cancer, Prostrate cancer etc., common cancer in females – breast cancer, cervical cancer, uterine cancer – causes, treatment measure supported by government. Importance of screening techniques was emphasized. Finally, doubts were cleared. More than 150 participants were present. For arranging the program permission was got from VIDHYODAYA TEACHER TRAINING INSTITUTION and program was organized by Mr. Jayaraman (MSW).

Adolescent Health Education about the menace of Open Defecation in Pidagam - October 5th 2019:

Venue: Pidagam

Date: 11/09/19

Time: 10.00 am – 12.00 pm

Conducted by: PG's and interns

In order to sensitize the Adolescents about the evil of open defecation that is widespread in their community, we gathered them in Pidagam Anganwadi and gave a speech on the harmful effects of OD and how they could eradicate it. About 30 adolescents in 2 batches actively participated in this session. Key messages like privacy and safety in using toilets were delivered using videos, flipbooks and charts. They also gave us some solutions to promote consistent toilet usage in their area. At the end we took an ODF pledge for Tamil Nadu along with the adolescents.

Story Telling Activity in Kappur Primary and High School regarding Open Defecation - October 9th 2019:

Venue: Kappur Primary and High School

Date: 08/10/19

Time: 10.00 am – 12.00 pm

Conducted by: PG's and interns

As a child to adult approach in dissemination of innovation, we conducted story telling activity in Kappur Primary and High school. We demonstrated a story on promotion of toilet usage using flipbooks and then asked the students about the good and bad behaviours in the story. We also gave them homework to demonstrate this story to at least 10 people in their community and get a sign. Teachers also actively participated in this activity.

After a week, we went to the same village for the review and distributed prices for students who got more signatures and painted good pictures against open defecation. We also got feedback from the headmistress, teachers and students about the activity. A student got more than 400 signatures from the villagers against OD. Some students acted as volunteers and warned the people who defecated in the road that led to the school. Most of the students wore a slipper during our visit and also showed us.

Breastfeeding Awareness Program in Thennamadevi Grama Saba- ***24th August 2019:***

Venue: Thennamadevi Grama Saba

Date: 06-08-2019, 07-08-2019, 09-08-2019

Time: 10.00 am – 12.00 pm

Target audience: 40 ANC mothers, 15 males and 10 family members along with 10 staffs,

25 girl nursing students,

10 women, 2 males, 3 other family members

Conducted by: PG's and interns

We conducted a breastfeeding awareness program in Thennamadevi Grama Saba on 24th August 2019. The key messages based on the theme "EMPOWER PARENTS; ENABLE BREASTFEEDING" were delivered to 50 general population consisting of both males and females from different sectors of the community including the panchayat leader. On this day, an awareness speech regarding the general information on breastfeeding, benefits of breastfeeding and harmful effects of formula feeding was given by Jeevan Kumar (Intern) using colorful posters and charts. We made an active demonstration on breastfeeding positions, holds and latching using dolls. Dr. Nancy (Post Graduate) gave a speech regarding how to tackle the common problems faced during breastfeeding and alternate methods of feeding. Mrs. Jayanthi (Medical Social Worker) gave an eye opening speech on the food items to be taken by lactating mothers to increase the their milk secretion. We emphasized on the importance of husbands and other family members

Breastfeeding health education for Nursing Students in UHTC- *26th August 2019:*

Topic: Breastfeeding health education

Venue: Urban Health Training Center (UHTC), Villupuram

Date: 26/8/19

Time: 10.00 am – 12.00 pm

Conducted by: PGs, Interns and MSW

As a part of our UHTC activities, we planned and executed a training program on practical skills to aid breastfeeding practices for the students and staffs of Tara Nursing Institute. Importance of Breastfeeding, harmful effects of Formula feeding, common problems faced during breastfeeding and alternate methods of feeding was explained by Dr. Nancy (Postgraduate) using posters and flipbooks. An active demonstration on the breastfeeding positions, holds and latching was done by Mrs. Jayanthi (Medical Social Worker).An awareness speech about the importance of males and workplace in enabling breastfeeding was given by Mr. Irusappan (Health Inspector). Finally, in order to evaluate the effectiveness of our session we conducted a small quiz on breastfeeding practices and we also clarified the doubts of the audience. Other participants of the session were Medical Interns and Mrs. Rathinamala (ANM).

Awareness on De-Addiction followed by exposure visit to Thai's de-addition centre, Villupuram- ***18 December 2018.***

As a part of our UHTC activities, we made an exposure visit to Thai's de-addition centre, Villupuram on 18 December 2018. On this day, we interacted with the Medical social worker, and other staffs working there. We had collected information regarding the structure, staffs, patient's information, counselling and treatment. We interacted with the patients and asked about the treatment compliance and the struggle they face during the treatment course. We also obtained information from the staffs how they handle the patients during the course of the treatment. This exposure visit was arranged by Mr. Jayaraman (MSW). This visit includes Postgraduate and medical interns who interacted with the patients during the visit.

CULTURAL PROGRAM FOR SENSITIZATION ON PALLIATIVE CARE AT THENNAMADEVI VILLAGE

DATE: 23.02.2018

Venue: Thennamadevi Village, Villupuram

Team members: Dr.E.Suguna and PGs- Dr.Balabaskaran, Dr.Divya, Dr.Pravin, Dr.Sindhuri, Dr.Padmavathy, Dr.Arulmozhi, Dr.Poomathy, Medical interns

Cultural program for sensitization on Palliative care at Thennamadevi village, Villupuram was conducted on 26.2.18 between 6.00pm to 9.00pm in a common place near a temple. This program was planned based on the request from the local people and support from volunteers working in Scope India. Around 150 village members attended the program. We went to Thennmadevi village and conducted cultural program regarding palliative care in collaboration with **Scope India (NGO)**. We started the program by welcome address followed **by Role plays, Mimicry, Dance performance** and motivational performance in that village. Dr.Suguna gave a speech to motivate the village members regarding the importance and need of palliative care program for the village members and how they can help the people in need. Lastly, we concluded with vote of thanks speech by Dr.Pravin. The event was conducted by the team of field workers at UHTC including Mr.Jayaraman (MSW), Miss. Valli (ANM), Mr. Vazhumuni, Miss. Dhanalakshmi (Msc Nursing) and Scope India students. The program was attended by Dr.E.Suguna and PGs- Dr.Balabaskaran, Dr.Divya, Dr.Pravin, Dr.Sindhuri, Dr.Padmavathy, Dr.Arulmozhi, Dr.Poomathy, Medical interns. The next step is to identify people who need palliative care in the village and to start home care services along with volunteer training programs. The village members showed interest and participated actively.

AWARENESS ON DE-ADDICTION

DATE: 05.01.2018

Venue: De-Addiction Centre in Villupuram

Team members: PGs, Mr. Jayaraman & Mrs. Jayanthi (MSW), Mr. Vazhumuni, & Miss. Dhanalakshmi (Msc Nursing), Mr. Irusappan (HI)

"Thai De-addiction Centre" was arranged on **05-01-18** and was visited by Mr. Jayaraman & Mrs. Jayanthi (MSW), Mr. Vazhumuni, & Miss. Dhanalakshmi (Msc Nursing), Mr. Irusappan (HI). They interacted with the in-charge Mr. Kaviarasan (Medical Social worker) and he gave an introduction on the centre. There were 24 in patients at the centre. They met the counsellors and other staff of the centre and got to know from them various modalities involved in the de-addiction treatment and the various types of patients they take care of. They also talked with the patients and got to know about their difficulties involved with de-addiction and lifestyle they follow and how they got addicted etc. This visit will help us to know the services available for de-addiction so that we can inform and refer people of need of these services in the community through our volunteers/adolescent groups/ self-help group women.

SCREENING PROGRAM FOR DRIVERS (AUTO AND CAR)

DATE: 22.05.2018

Venue: Villupuram Junction

Team members: PG, CRRI and MSW.

Screening program for drivers at Villupuram junction

As a part of UHTC field activities, we organized a screening program for drivers (auto and car) at Villupuram junction in collaboration with Scope India and Railway children project. This program was conducted as a part of observing World No Tobacco Day, 2018. The camp was held on 22.5.2018 at Villupuram Railway Junction. The program was inaugurated and attended by special guests Mr. Johan Pushk (senior program officer – Railway children project), Mr. Ashokan Sub-inspector (Railway police station), Mr.Nedujezhiyan, Director (Scope India), Mr. Sivaraj (President of Autostand). The program was coordinated by Medical Social Worker Mr Jayaraman, Dr Poomathy (Postgraduate), Dr Suguna and Dr Prabhadevi (Medical officer, UHTC). We had Dr Naveen, postgraduate from the Department of Ophthomology to conduct eye screening as many of the drivers had diabetes and hypertension. MrKaviarasan (Medical Social Worker, Thai Deaddiction Centre, Kollianur) gave a briefing and motivation about the services available for deaddiction. Fifty nine drivers attended the camp and 54 of them underwent eye screening of which 16 patients were referred to higher centre. The program was well received by all the attendees.

COMMUNITY BASED MEDICAL EDUCATION PROGRAM (CBME)

DATE: 08/07/2017 – 14.07.2017

Venue: Emapoor

Team members: Faculties, PGs, Interns and Students

Community Based Medical Education program is conducted every year for third and fourth semester MBBS students of our college. This year it is conducted in the village Emapoor, Thiruvennainallur for the period of one week from 19.3.18 to 25.3.18. Till date we have organized six CBME programs. The program was started with self-introduction and briefing with the student about the importance of the program. The students were divided into small groups and each group was guided by the faculty or post graduate or medical social worker. The students were introduced to the allotted family by the guide. The student's collected demographic characteristics, identified the environmental risk factors, carried out personal hygiene and diet survey for the family members of the allotted house using the format. The students also identified the family members suffering from acute and chronic medical problems. Medical camp was organized in the village to treat the acute medical condition. To ensure early clinical exposure, the students were asked to accompany the family members with medical problems to the medical camp and to observe the management by the treating doctor. Feedback in the form of open-ended questions were obtained from the students on the final day.

Health checkup camp for sanitary workers

Topic: Health checkup camp for sanitary workers

Venue: Villupuram Junction (Chief Health Inspector Office)

Date: 18/10/17

Time: 10.00 am – 1.00 pm

Conducted by

A health checkup program was conducted for sanitary workers on 18.10.2017 at Villupuram Junction (Chief Health Inspector Office) between 10:00 am to 1:00 pm in collaboration with Scope India (NGO). Around 98 sanitary workers were screened by a team of doctors (Medical Interns, Post Graduate) and health care workers (Medical Social Workers, ANM, lab technicians). Routine blood investigations were done and consultation given. The sanitary workers found the camp very useful as they hardly sought any medical advice. Lunch and refreshments were provided to all the members of the team.
