Report of Programs organized by Medical Education Unit in the year 2022 - 23

Workshop on Reflective Writing

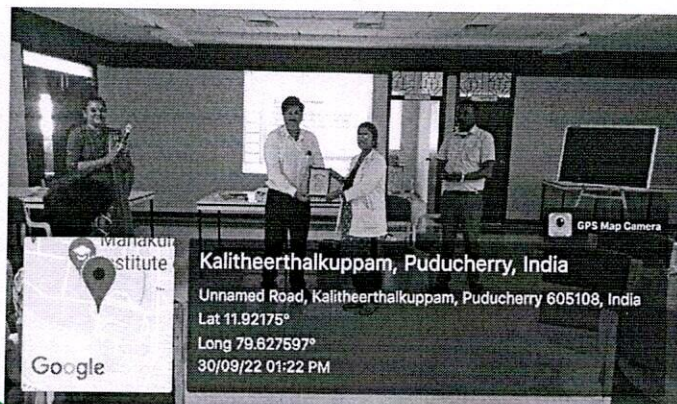

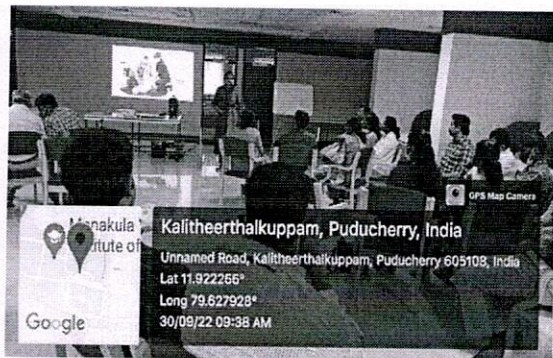

The MEU organized a half day “Workshop on Reflective Practices in Teaching, Learning” for the faculty of SMVMCH on 27.07.2022. The Dean Academic inaugurated the session, by highlighting the importance of “Reflective Writing” in CBME Curriculum. Dr.G.Sivaraman, Additional Professor, Department of ENT, JIPMER and Dr.P.Pasupathy, Assistant Professor, Department of Orthopaedics, JIPMER facilitated the sessions of the workshop. There were totally 36 participants in the workshop, representing around 20 departments. The resource faculty highlighted the essentials of Reflective Writing. The participants were divided into groups and they were asked to reflect on different articles (Reflections by different authors). The facilitators discussed about “Gibb’s Reflective Cycle” in detail along with the discussion over different templates. Overall, it was an interactive session and good feedback was obtained from the participants. The workshop was awarded 1 credit hour by the Tamil Nādu Medical Council.

Workshop on “Planning and Execution of OSPE and OSCE”

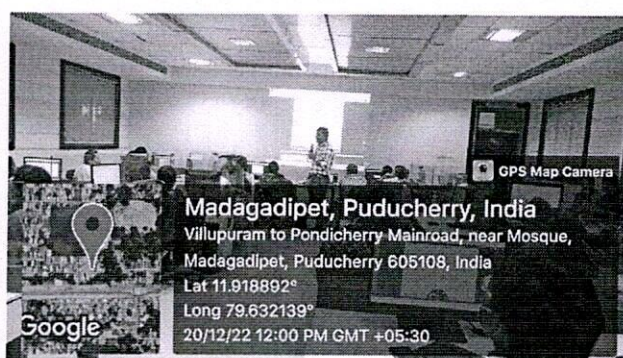

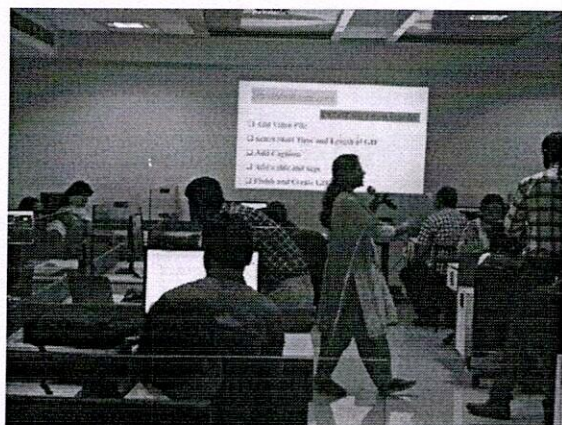

The MEU in collaboration with the Simulation Centre of SMVMCH organized a full-day workshop on “Planning and Execution of OSPE and OSCE” for around 37 faculty of SMVMCH, involving nearly 20 departments on 28.10.2022 at the Simulation Centre of SMVMCH. Dean Research inaugurated the session and highlighted the essentials of OSPE and OSCE in the CBME curriculum. Dr.V.N.Mahalakshmi, Dean-HPE and Dr.Arun Daniel J, Associate Professor, Department of Community Medicine from Aarupadai Veedu Medical College facilitated the sessions. The resource faculty enlightened the participants on selecting the skills to be assessed by OSCE, Blueprinting on OSCE, Key components in running an OSCE and reporting the results of OSCE. The participants were shown a live demonstration of 6 OSCE stations on various skills, attended by interns and it was well appreciated by participants. There was a debriefing session and the resource faculty addressed all the queries of the participants. The sessions were highly interactive and the workshop was awarded 2 credit hours by the Tamil Nadu Medical Council.

Workshop on E-content and E-Course Development

The MEU, organized a full-day workshop on “E-Content and E-Course Development” for the faculty of SMVMCH on 21st December, 2022. The program was organized to provide an intensive hands-on training on the various ICT enabled tools that can be effectively utilized for effective teaching, learning and assessment. Around 28 faculty were oriented to the different ICT enabled tools and the multimedia principles. The participants enthusiastically participated in the hands-on training sessions on development of interactive images, creating animations, creating interactive PowerPoint presentations, conducting interactive online quizzes for large group. A session was exclusively dedicated for the participants to explore the institutional “Learning Management System”. An afternoon session was exclusively dedicated in sensitizing the participants towards “Instructional Design Models” involved in E-Course development and hands on experience was given on developing a template for E-course using MOODLE. The sessions were highly interactive and feedback has been obtained from all the participants. The workshop has been awarded 2 credit hours by the Tamil Nadu Medical Council.

Revised Basic Course Workshop in Medical Education

The 4th Revised Basic Course workshop and AETCOM in 'Medical Education Technologies' was held between 18th – 20th January 2023 under the observation of **Dr.Nivedita Nanda**, Additional Professor, Department of Biochemistry, NMC Regional Centre, JIPMER, Puducherry-605006. A total of 28 senior, mid and junior level faculties from our institute participated in the workshop. The 3-day workshop was organized as per the guidelines of NMC. The program was conducted in the newly constructed "Medical Education Unit". The sessions were interactive, with group activities for participants. The workshop was evaluated by the observer and the feedback was obtained from the participants.

Feedback Analysis

- New resource faculty can be added for the next RBCW as per the new guidelines released by NMC
- Planning of sensitization session to the Smart Board installed in the new MEU, for its effective usage by the resource faculty
- In general, the resource faculty were requested to include adequate group activities for their respective sessions to make it more interactive and for promoting active participation

Action Taken

- Dr.Soundariya prepared the list of members who can be newly added in the MEU and the same was approved by the members in the MEU meeting
- It was decided to conduct a session on the "Handling of Smart Board" in the last week of April, 2023.

Workshop on "Planning and Execution of OSPE and OSCE"

The MEU in collaboration with the Simulation Centre of SMVMCH organized a half-day workshop on "Planning and Execution of OSPE and OSCE" for around 25 participants, comprising of Postgraduates and faculty of Medicine department of SMVMCH on 22.03.2023 at the Simulation Centre of SMVMCH. Dr.Soundariya inaugurated the session and highlighted the essentials of OSPE and OSCE in the CBME curriculum. Dr.M.Jayasree, Coordinator, Simulation Centre SMVMCH facilitated the sessions. The resource faculty enlightened the participants on selecting the skills to be assessed by OSCE, Key components in running an OSCE and reporting the results of OSCE. The participants were shown a live demonstration of 5 OSCE stations on various skills and it was well appreciated by participants. There was a debriefing session and the resource faculty addressed all the queries of the participants. The sessions were highly interactive and positive feedback was obtained from the participants.

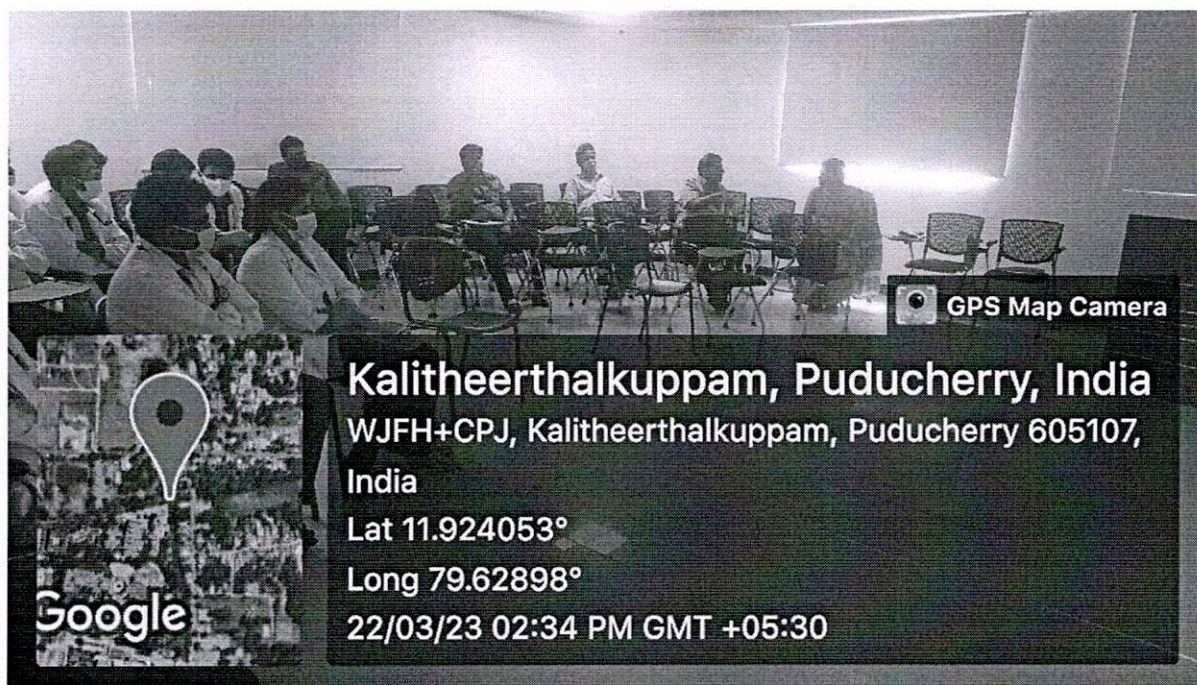

Feedback Analysis

- The practical constraints in conducting the OSCE was well discussed
- Dr.Girija.S, Professor and HOD, Department of General Medicine requested overview of the conduction of OSCE during ward leaving exams, by the MEU and the coordinator of Simulation Centre for betterment of the same
- It was insisted on organizing similar workshops for other clinical departments in turns to facilitate sensitisation for STEP-2 of NEXT.

Action Taken

- The suggestions were discussed with dean and it was decided to first obtain the station scenarios from the clinical departments followed by fixing of slots for the conduct of the workshop

II Professional Year Orientation Program

A one-day orientation program was organized by the MEU for the 2nd year undergraduates (CBME Batch 2021-22) on 27.02.2023. The students were oriented to the clinical departments, Clinical postings and Phase II departments. An orientation session was also delivered by Dean Academic on “NEXT” regulations for the benefit of students. The mentees were allotted mentors from Phase II faculty and a formal introductory meet happened between the mentors and mentee in the afternoon session, as a part of Student Support System.

Programs for Postgraduates

Workshop on “Basic presentation and teaching skills and Orientation to CBME” for postgraduates

The Medical Education unit of SMVMCH, organized a 2-day workshop on “Basic presentation and teaching skills and Orientation to CBME” for all the first year postgraduates of SMVMCH, conducted on two batches, the first batch (33 participants) on 11th-12th October, 2022 and the second batch (35 participants) on 17th & 18th October, 2022. The program was organized to provide an orientation to the postgraduates about the rules, assessment plan and deliverables during the post-graduation course. The program also oriented them about seminars and journal club and provided guidance in planning during the preparatory phase and tips for improving their presentation skills. The program also gave an overview about the Competency Based Medical Education (CBME) Curriculum and highlighted the goals, roles and competencies of Indian Medical Graduates to them.

A dedicated session on skills training incorporating Cardio Pulmonary Resuscitation (CPR) and soft skills such as Communication skills, teaching clinical history taking and breaking bad news was conducted which was highly appreciated by the participants. The
