“Starting up a Diagnostic Imaging centre – A career guidance”

In a ground breaking session aimed at blending entrepreneurship, start-up culture, and innovation within the medical field, the Department of Radio-Diagnosis at SMVMCH hosted an enlightening webinar. The event took place in the department's demonstration room on 18.01.2024, drawing an engaged audience of 28 postgraduates on-site and 31 participants online through Google Meet, alongside 10 faculty members.

Guest Speaker

The webinar was graced by Dr. Yash Kumar Achantani, M.D., a distinguished Consultant Radiologist and Managing Director at Rajsheel Diagnostics, Dabra, Madhya Pradesh. His expertise in radiology and experience in managing a diagnostic center provided a rich foundation for the session. Dr. A. Umamageswari, Professor and HOD of the Department of Radio-Diagnosis, SMVMCH, introduced the guest speaker, setting the stage for an insightful presentation.

Learning Highlights

Dr. Achantani delved into the critical aspects of starting a scan centre, addressing the entrepreneurial journey in the radiology sector. His talk was not just informational but also inspirational, highlighting the importance of innovation in enhancing diagnostic services and patient care. The session became highly interactive as postgraduates actively engaged with the speaker, posing thoughtful queries about the nuances of entrepreneurship and start up challenges in the medical diagnostic field.

This webinar not only shed light on the entrepreneurial opportunities in radiology but also emphasized the significance of innovation in establishing and managing successful start-ups in healthcare. The enthusiastic participation of postgraduates and faculty members underscored a keen interest in intertwining medical expertise with entrepreneurial ventures, marking a step forward in fostering a culture of innovation and start-up mind-set in the healthcare sector.
