National education Day celebration

REPORT

Title: Session on National Education Day and Learning Empowerment

Date: 11.11.23

Objective: The session aimed at fostering innovation, startup culture, and entrepreneurship among MBBS I year students and faculty, while also educating them about the significance of National Education Day (NED). Dr. Deepika V, the IIC Convenor and Innovation Ambassador, led the session.

Participants: MBBS I Year Students (250); Faculty: 5

Session Overview: Dr. Deepika V initiated the session by emphasizing the role of innovation and entrepreneurship in driving societal progress. She highlighted how education acts as a catalyst for innovation and empowers individuals to become changemakers. The discussion then shifted to the importance of celebrating National Education Day and its connection to fostering a culture of innovation and entrepreneurship.

Participants were enlightened about the historical origins of NED, underscoring Maulana Abul Kalam Azad's visionary contributions to India's education system. The session aimed to inspire a sense of entrepreneurial spirit and innovation among the attendees, encouraging them to leverage education as a tool for societal transformation.

An interactive activity ensued, where students were encouraged to share their thoughts on education through a Google Form. This activity not only facilitated student engagement but also provided insights into their perspectives on the transformative potential of education.

Moreover, the session delved into the significance of nurturing startup ecosystems. Dr. Deepika V shed light on the entrepreneurial landscape, showcasing the opportunities and resources

available for aspiring entrepreneurs. By connecting the dots between education, innovation, and entrepreneurship, the session aimed to equip participants with the mindset and skills necessary for venturing into the startup ecosystem.

Key Outcomes: Increased awareness among students and faculty about the transformative power of education, innovation, and entrepreneurship.

Active participation of students in expressing their views on education, reflecting a diverse range of perspectives and insights.

Raised awareness about startup ecosystems, motivating participants to explore entrepreneurial endeavors and leverage educational opportunities for innovation.

Feedback: Online feedback was collected through the provided Google Form. Participants were encouraged to share their feedback on the session content, delivery, and overall experience, fostering continuous improvement and engagement.

Conclusion: The session on National Education Day and learning empowerment, led by Dr. Deepika V, served as a platform for fostering innovation, startup culture, and entrepreneurship among participants. By highlighting the historical significance of NED and emphasizing the role of education in driving innovation and societal progress, the session inspired individuals to embrace an entrepreneurial mindset and actively contribute to the startup ecosystem. The active participation and engagement of students and faculty underscore the relevance and impact of such initiatives in nurturing a culture of innovation and entrepreneurship within educational institutions.
