ANNEXURE - 1

Sl. No	Description of items	Unit	Quantity	Rate (Rs)	Amount (Rs)
1	Flooring				
	Providing and laying vitrified tiles flooring using base of cement mortar 1:4 laid and jointed with grey cement slurry including rubbing and polishing complete for including labour and materials (Nitco/Rak/Johnson/Asia)	Sqm	260.00	1,245.00	323,700.00
2	False ceiling Works				
	Frame work: Providing and fixing USG Boral suspended ceiling system components. Fix USG boral ST-50 fully knureled perimeter channel (0.50mm thick having one flange of 20mm and another flange of 30mm and web of 28mm) screw fixed to brick wall/partition with the help of approved screws at 600mm centres. Then suspending USG boral ST-50 fully knurled intermediate channel (45mm x 0.90mm thick with two flanges of 15mm each) from the soffit at 600mm centre with USG boral fully knurled ceiling angle (25x10mmx0.50mm thick) fixed to RCC slab with soffit cleat of size 27mm wide x 1.5mm thick with flanges of 27mm and 35mm, and approved fasteners @900mm centres respectively. USG boral ST-50 fully knurled ceiling section (0.50mm thick having web of 50mm and two flanges of 27mm each) are then fixed to the USG boral ST 50 fully knurled intermediate channel (0.90mm thick having web of 45mm and two flanges of 15mm each) with the help of 2.5mm thick wire connecting clip and in perpendiculer direction to the intermediate channel at 457mm centers.	Sqm	260.00	860.00	223,600.00
	Board: 12mm square edge USG boral standard plasterboard is screw fixed this includes providing and fixing false ceiling at all heights with 25mm long drywall screws at 230mm centres. The screw fixing of gypsum board to the metal framing at periphery, opening and cut edges should be at 150mm centres. All the standard plasterboard must be staggered. Finally, plasterboard and screw head are to be jointed and finished, so as to have flush look which includes filling tapered edges and squre edges of board with USG boral APJC compound, USG boral paper tape (as per recommended practice of USG boral pvt ltd), all complete as per drawings, specification and are as directed by the engineer. The rate shall be inclusive of any additional framing supports, two coats of putty and painting as per architecture instruction and making cutout for light fixtures, AC grills, speakers, smoke detector etc., all complete as per drawings (or) as directed by the Engineer-in-charge; Rate inclusive of providing vertical panels in the gyp false ceiling in case of level differences between adjoining ceiling				

Louis

Sl. No	Description of items	Unit	Quantity	Rate (Rs)	Amount (Rs)
3	Partition Works				
	Providing & fixing 75 mm thick partition which made of 50 x 50 mm wood frame work on both way upto 2600mm height, comprising with both side of 12mm thk commercial ply (Green ply or Equivalent), finished with 1mm thick laminates of approved shade (10865 Balinese pine), (21029 warm grey) (10596 scandinavain oak), (Weathered oak 10597), (Murky straw 10242) from Merinolam and (5572/STN) Grey marquina from Greenlam, including 2mm and 10mm wide groove and 6mm thk lacqured glass flame red from Saint gobain with SS beading as shown in as per the drawing. All necessary screws and other hardwares are to be provided.	Sqm	164.00	6,000.00	984,000.00
4	Flush Doors	7			
	Providing and fixing a door of size (1000mmx2400mm) and (1500mm x 2400mm) which made of factory made solid flush door shutter 35mm thk, finished with 1mm thick laminate on both side of the door of approved shade as per drawing from Merinolam, including 6mm thk clear glass for vision purpose, including all necessary hardwares such handle code no: 8838, S.S hinges code no: 7904, S.S aldrop code no: 8540, S.S tower bolt code no: 8577, etc., all hardwares from Godrej, all complete as per drawings, specifications and / or as directed by the Engineer	Sqm	22.00	11,836.00	260,392.00
5	Staff table				
	Providing and making workstation table with drawers of size mentioned as per drawing, made of 19mm thk commercial plywood (Greenply or Equivalent), table top and all othe vertical members made of 19mm thk ply, table top, front and all exposed sides are finished with 1.5mm thk laminate of approved shade of (10838 Helsinki oak) and (10596 Scandinavian oak) from Merinolam, all ply edges finished with laminate, including CPU stand and keyboard tray shall be provided of approved model and make, drawer slides from HAFELE hardwares, including switch box and hole for computer wiring, legrest and necessary hardwares such as handle code: 115.95.001, drawer slides code:422.87.906,etc. all hardwares from HAFELE, all complete as per drawings, specifications and / or as directed by the Engineer.	Nos	2.00	26,000.00	52,000.00
6	Storage Cupboard				

Sl. No	Description of items	Unit	Quantity	Rate (Rs)	Amount (Rs)
	Providing and fixing full height cupboard with drawers, storage units with sides,top,bottom, shutter,partition & shelves made of 19mm thk comercial ply of (Green ply or Equivalent), the partition and shelves shall be fixed at proper spacing as shown in drawing, the front shutter and exposed sides shall be finished with 1.5mm thk laminate of approved shade of (Weathered oak 10597) from MERINOLAM, and inner side shall be finished with paint Farm land 9532 from Asian paint, all ply edges finished with laminate, including necessary hardwares such as handle code: 115.95.001, hinges code: 316.30.501, magnetic catcher, drawer slides code:422.87.906 etc., all hardwares from HAFELE, all complete as per drawings, specifications and / or as directed by the Engineer.	Sqft	175.17	2,100.00	367,857.00
7	Painting works				
	Painting of walls with SEMI MATT ENAMEL - ASIAN PAINTS / equivalent to match the wall as specified in the drawing. Existing wall surfaces to be prepared by scraping away any loose particles, dust, etc by washing and scrubbing and 1 coat of primer approved by manufacturer applied. The wall surfaces are then smoothened using putty approved by the manufacturers. Surfaces are then sandpapered to achieve a smooth finish and two or more coats of paint are applied as per manufacturer's specification.	sqm	660.00	269.00	177,540.00
8	Patient cot	Nos	4.00	6,000.00	24,000.00

The workshops are usually conducted for students in 6th or 7th semester and the same workshop will be conducted during the orientation program for interns for reinforcement. The students in their feedback reported that by attending these workshops in the skills lab using manikins and bench top models improved their confidence in basic clinical skills.

The **basic surgical skills workshop** covered the universal precautions, aseptic techniques for gowning, gloving and scrubbing in theatre as well as basic knot tying and suturing techniques. Each group consisted of 30students. There were 5- 6 facilitators for each session. The groups were subdivided into 5-6 per each facilitator. The techniques were introduced through video demonstrations. Then the techniques were taught by Peyton's model. The students practiced each skill till they were able to do it on their own. At the end of the day they were assessed on their knotting and suturing skill using OSCE.

Learning objectives:

At the end of this workshop, participants should be able to:

- Explain the principles of universal precautions
- Demonstrate safe and proper procedures for hand washing, gowning and gloving
- Demonstrate handling of surgical instruments
- Demonstrate effective technique of laying secure surgical knots
- Demonstrate technique of basic surgical suturing with instruments
- Demonstrate basic splinting techniques

STATION 1 – CPR

STATION 2 – AIRWAY MANAGEMENT

STATION 3 – DEFIBRILLATION

STATION 4 – VIDEO SESSION (BLS + ACLS)

The students attending the **practical skills on obstetrics** workshop are divided into four groups and attend each station of one hour duration. The objectives are:

- 1. Plot and interpret a Partogram and will be able to identify normal and abnormal progress of labour
- 2. Demonstrate technique of Vaginal breech
- 3. Demonstrate the proper technique for basic maneuvers to relieve shoulder dystocia
- 4. Demonstrate the correct technique to perform & suture episiotomy

The students are assessed by pre and post test and OSCE stations

Similarly in the **basic medical skills workshop** is conducted using iv line hand manikin, catheterization manikin and tracheal intubation manikins for teaching skills such as male and female catheterization, Ryles tube insertion, tracheal intubation and IV line insertion. The students were also taught how to handle trauma patients and respective first aid techniques using demonstration. At the end of session the students were given feedback and assessed using objective type questions and OSCE.

PROGRAM SCHEDULE: 2.00-4.00PM

Learning objectives: at the end of the workshop, the participant should

- 1. Be able to demonstrate the safe removal of helmet
- 2. Be able to control bleeding after trauma
- 3. Be able to do fracture splinting
- 4. And finally know how to transfer the patient safely to the hospital

Afternoon	Topics	Teaching method	Teaching aids	Resource person
