IIC Self Driven Activity

Institution's Innovation Council

Title: Poster Research Paper/Case Report Presentation – SIMSCON 2024.

Date: 19.10.2024

Organizing Secretary: Dr.P.Sanjay.

IIC - Student Coordinator: Adithya B

Time: 2.00 PM onwards

Objectives:

- Familiarize MBBS students with the principles and processes of medical research and case reporting.
- Cultivate an interest in exploring and addressing unanswered questions in healthcare.
- Teach students how to effectively present their findings in the form of posters, case reports, or research papers.
- Develop skills in public speaking, data visualization, and concise scientific communication.

Judges:

Dr. S. Babu

Head & Professor, Department of General Surgery, Sri Manakula Vinayagar Medical College and Hospital, Puducherry.

Dr. Nallamuthu

Head & Professor, Department of Ophthalmology, Sri Manakula Vinayagar Medical College and Hospital, Puducherry.

Dr. M. Arulmozhi

Associate Professor, Department of Community Medicine, Sri Manakula Vinayagar Medical College and Hospital, Puducherry.

Participant Details:

The Contest had a total participants of 40 MBBS of all Phases and Post Graduates from other Institutions also. The participants showcased their original research papers and case reports in form of Posters.

Programme Overview:

The Institution Innovation Council of Sri Manakula Vinayagar Medical College and Hospital organized a Poster Presentation for Undergraduate and Post Graduate students For Internal as well as Externals from various Institutions at the South Indian Medical Students Conference (SIMSCON) 2024. The participants presented posters of their original research papers and their case reports in front of the judges panel. They were judged based on their presentation skills, creativity and quality of the content. A winner and runner were selected for both Ug and PG and were awarded cash prizes by the Head of the Institution.

Outcomes:

- Students gained a deeper understanding of medical research and case documentation.
- Exposure to the process of gathering, analyzing, and presenting data enhances their academic skills.
- Participants learn to communicate complex medical concepts effectively through visuals (posters), written reports, and oral presentations.
- The experience builds confidence in public speaking and answering questions under scrutiny.

Way Forward:

Moving forward, the Institute Innovation Council will continue to conduct various IIC Self Driven activities aimed to promote student research, innovation, startup and Entrepreneurship. IIC will

Conduct regular contests and sessions to analyze the research activities of the students and take it step further to convert as ideas and patents.
