Title: “Research Week Celebration – Topic: Hands - on- Workshop Case Report Writing for Postgraduates”

Date: 05.12.24 (Thursday).

Organising Department: Dermatology, Venereology & Leprosy

Coordinator: Dr. P.Vijayasankar, Assistant Professoor

Time: 2.15 to 3.30 pm

Objectives: To provide hands on experience to PG's in writing case report for publication.

Guest Speaker: -

Participant Details:

- Facilitator: Six faculty from the Department of DVL, SMVMCH

- Attendees: Eight Postgraduates from the Department of DVL, SMVMCH

Programme Overview:

Outcomes:

Our department recently conducted an interactive workshop aimed at enhancing the skills of dermatology postgraduates in writing case reports. The session was designed to provide a comprehensive understanding of the structure, content, and nuances of a well-crafted dermatology case report.

The workshop included practical, step-by-step guidance on how to effectively present clinical cases, from selecting appropriate cases to writing clear and concise narratives. Participants were also trained on how to document important clinical findings, include relevant diagnostic tests, and present treatment outcomes in a systematic manner.

Throughout the session, attendees actively engaged in group discussions, analyzing sample case reports, and working on real-world cases. By the end of the workshop, participants had gained valuable insights into the essentials of academic writing in dermatology, with the aim to encourage more original contributions to dermatological literature.

Way Forward/Conclusion:

The interactive workshop on case report writing has successfully equipped dermatology postgraduates with the skills necessary to document and present clinical findings with clarity and precision. This initiative not only enhanced their academic writing abilities but also emphasized the importance of contributing to the growing body of dermatological literature.
