IIC CELEBRATION ACTIVITY

Institution's Innovation Council

Title: National Pollution Control Day-(Collage Competition)

Theme: INNOVATIVE SOLUTIONS FOR POLLUTION

CONTROL SHAPING A SUSTAINABLE FUTURE.

Organizing Secretaries: Dr.P.Sanjay IIC

- Student Coordinator: Deepak V

Time: 04.00.PM onwards.

Objectives:

1. **Purpose of the Collage:** The collage aims to support the IIC's mission of promoting innovation and sustainable solutions by raising awareness about the harmful impacts of pollution and encouraging innovative approaches to tackle environmental challenges.
2. **Focus Areas:** It will highlight the various types of pollution—air, water, and soil—and demonstrate how technological advancements and innovative practices can help mitigate these environmental issues, in alignment with IIC's focus on fostering innovation.
3. **Message of Sustainability:** The collage will emphasize the role of sustainability in driving future innovations, encouraging individuals and institutions to adopt eco-friendly practices, and showcasing how IIC supports green technologies for a cleaner and healthier planet.

4. **Call for Collective Responsibility:** By participating in this competition, the objective is to inspire IIC members and the broader community to take collective action in addressing pollution, promoting innovation as a key driver for long-term environmental solutions and sustainable development

Participant Details:

The competition had 9 participants from phase-1 of MBBS. The submissions were judged by distinguished judges in innovation, research and art.

Programme Overview:

The National Pollution Control Day was celebrated on 02.02.2025 with an collage competition. The participants were given 7 days to work on their Collage and were asked to submit their Collage .Nine participants from phase-1 of MBBS participated in the competition and were judged based on the Relevance to the theme, creation, innovation, presentation and description. Two of the participants were chosen as Winner and Runner and were felicitated by the Head of the Institution.

Outcomes:

- **Increased Awareness:** The collage will help raise awareness about the urgent need to address pollution and the significant role of innovation in pollution control.
- **Encouragement of Innovative Solutions:** The competition will inspire students and participants to think creatively and explore innovative solutions to environmental challenges, supporting IIC's vision of promoting innovation.
- **Promotion of Sustainable Practices:** The event will reinforce the importance of sustainability, motivating individuals and institutions to adopt environmentally responsible practices.

- **Community Engagement:** The competition will foster a sense of collective responsibility, encouraging people to take proactive steps in reducing pollution and working towards a greener future.
- **Collaboration with IIC Initiatives:** The event will highlight the alignment of pollution control efforts with IIC's goals, facilitating a stronger connection between innovation and environmental conservation.

Way Forward:

Moving forward, the Institute Innovation Council will continue to conduct various day celebration activities and events for public perception of technology, and community engagement. Emphasis will be placed on fostering innovation, critical thinking, and entrepreneurship among students and faculty.
