

Medical College and Hospital  
Kalitheerthalkuppam, Puducherry 605107

**Institution's Innovation Council**

**IIC CELEBRATION ACTIVITY**

**Title:** World Environment Day.

**Theme:** “Branching Out for a Better Planet” – Together for a greener Earth.

**Organizing Secretaries:** Dr. P.Sanjay, Dean Research, IIC - Convener

**IIC - Student Coordinator:** Deepak V

**Time:** 12.00 PM

**Objectives:**

1. Raise awareness about the importance of trees in maintaining ecological balance.
2. Engage students and community members in practical environmental action.
3. Increase green cover to improve air quality and support biodiversity.
4. Foster a culture of sustainability and environmental stewardship among participants.
5. Contribute to global climate change mitigation efforts through local initiatives.

**Participant Details:**

The event witnessed active participation from Phase-III MBBS students, faculty members, and IIC ambassadors, all coming together to contribute to the tree planting initiative.

**Programme Overview:**

The World Environment Day Tree Planting Event, organized by IIC, brought together Phase-III MBBS students, faculty members, and IIC ambassadors to promote environmental sustainability and

ecological balance. The program aimed to create awareness about the vital role of trees in combating climate change, enhancing biodiversity, and improving air quality. Participants engaged in hands-on planting activities within the campus, fostering a sense of responsibility and commitment towards preserving nature. The collaborative effort not only enhanced campus greenery but also strengthened the culture of environmental stewardship within the institution.

**Outcomes:**

1. Significantly increased the campus green cover through the planting of a variety of indigenous trees.
2. Greatly enhanced awareness among students, faculty, and IIC ambassadors about the importance of environmental conservation and sustainability.
3. Strengthened collaboration and teamwork between students and faculty in planning and executing impactful sustainability initiatives.
4. Encouraged a long-term sense of responsibility and commitment to protecting, watering, and nurturing the planted trees.
5. Contributed meaningfully to biodiversity enhancement and supported climate change mitigation efforts at the local level.

**Way Forward:**

Following the success of the event, regular monitoring of planted trees and periodic awareness drives will be conducted to ensure sustained impact. Partnerships with environmental organizations will help expand tree planting beyond campus, while integrating sustainability projects into academic and extracurricular activities will promote a lasting culture of environmental stewardship.
