Closure session of AETCOM-1

Date: 05.04.22

Topic: Cadaver as first teacher

Time duration: 120 minutes

Facilitators: All faculties

Objective:

Students participated in Elocution on "My First Medical Teacher" and expressed their emotional feelings, human values and their opinions about cadaveric usage in medical field.

Lesson plan	Activity	Time	Faculty
Talk on cadaveric dissection in Anatomy	Speech	30 min	Dr.K.V.P.Suriyakumari
Students activity	Elocution	60 min	All faculty
Feedback	Group activity and discussion	30 min	All faculty

Participants:

1. SUSMITHA M
2. SUCHARITA S SINHASAN
3. R SRIKANTH
4. HALEEMA AAFRIDHA
5. HARSHA VARDHANA S
6. MEGALSRI R

Robing of cadaver

Medical college and Hospital

DEPARTMENT OF ANATOMY

Cadaver as first teacher – AETCOM

2021-2022

Lesson Plan

Date : 17.10.2022

Topic: Robing of Cadaver

Time duration: 120 minutes

Facilitators: All faculties

Objectives:

At the end of the session, the participants should be able to

1. Describe the process of cadaver procurement
2. Enlist the rule and regulations to be followed during the dissection session
3. Demonstrate appropriate handling of cadaveric specimens

Topic	Activity	Time	Faculty	Materials required
Cadaveric procurement and embalming	Group activity and discussion	15 min	All faculties	Oral presentation
Cadaveric oath	Group activity and discussion	45 min	All faculties	Mike and speakers
Rules and regulations to be followed during dissection sessions	Group activity and discussion	15 min	All faculties	Charts
How to handle cadaveric specimens	Group activity and discussion	15 min	All faculties	Cadaveric specimens
Safety measures in dissection hall	Group activity and discussion	15 min	All faculties	Dissection instruments
Feedback	Group activity and discussion	15 min	All faculties	Handouts

Department of Microbiology
SESSION PLAN

TOPIC: AETCOM Module 2.4- Working in a health care team

Date: 07.09.2022 to 09.09.2022

TIME: 9.30 am to 4.30 pm

Duration: 6 hours

Audience: Phase-2 MBBS students

Venue: Demo Hall -A (Department of Microbiology), Lecture Hall-2

Module: 2.4 working in a health care team

COMPETENCIES ADDRESSED:

1. Demonstrate ability to work in a team of peers and superiors
2. Demonstrate respect in relationship with patients, fellow team members, superiors and other health care workers

SESSION OVERVIEW: The students (150) will be divided in to six groups with each group comprising of 25 members. Each group will go to wards of respective clinical postings as per schedule. The group of 25 will be further sub- divided in to 5 sub groups with each group comprising 5 members. Each member of the sub-group will be assigned specific roles like leader, interviewer, scribe, time keeper and presenter.

The students of each sub group will be asked to 'tag along' a specific health care group (Doctor, staff nurse, intern, lab technician, clerk and attendant).

Students should observe their health care team's daily routines in patient care and how each member of a team contributes to patient care. Students can conduct interviews with the HCW wherever possible.

Schedule / Lesson plan

Module 2.8: What does it mean to be family member of a sick patient?

Background

Doctors deal with human suffering throughout their professional careers. A balanced approach to the patient care experience requires an understanding of support systems of patients, priorities coping and emotions of families, the role of the doctor, an exploration of empathy vs equanimity and the difference between healing and curing and support.

Competency addressed

The student should be able to:	Level
Demonstrate empathy in patient encounters	SH

Learning Experience

Year of study: Professional year 2

Hours: 6 (includes 2 hours of SDL)

- i. Hospital visit & interviews - 2 hours
 - ii. Large Group Discussions with patients' relatives - 1 hour
 - iii. Self-directed Learning - 2 hours
 - iv. Discussion and closure - 1 hour
1. Students are assigned to patients in the hospital, interview their family about their illnesses, experience, reactions, emotions, outlook and expectations (or can be done in a controlled environment with standardised patients).
 2. Family members of patients with different illnesses may be brought to a large group discussion with permission and an interactive discussion (based on the items outlined in option A. Can use standardised patients).
 3. Self-directed learning where students write a report from reflection based on sessions 1 & 2 and on other readings, TV series, movies etc.
 4. A closure session with students to share their reflections based on 1, 2 and 3 so that it includes how they intend to incorporate the lessons learnt in patient care.
