MUCORMYCOSIS SCREENING CAMP FOR POST COVID PATIENTS

The department of dentistry, SMVMCH conducted a free “Mucormycosis Screening Camp for Post COVID patients” at Sri Manakula Vinayagar Medical College and Hospital on 31.05.2021, 1.06.2021 and 2.06.2021 from 9.00 am to 12 noon. A detailed, unique screening form was prepared consisting of COVID history, co-morbidities, Steroid therapy, events during hospitalization (people under long standing oxygen therapy, prolonged ICU stays, people under mechanical ventilation) along with oral, ophthalmic and ENT examination column. Around 590 patients, who were admitted in our institution for COVID management for the past 3 months, were telephoned personally. Out of which 82 patients reported for screening. Only patients who have completed atleast 30 days from the date of tested positive were called. No evident signs and symptoms of Mucormycosis (Black Fungus) was detected in screened patients. COVID protocols were strictly followed during the camp proceedings. Detailed explanation of signs and symptoms of Mucormycosis was given to all the patients and was advised to report if they have any of those symptoms in future.
