Intern diary

### **Internship :**

A phase of training wherein fresh medical graduates are expected to conduct actual practice of medical and health care and acquire skills under supervision so that he/she may become capable of functioning independently.

Objectives of Internship Programme for M.B.B.S students are as mentioned below.

- a. Clinically diagnose common disease conditions encountered in the community.
- b. Refer complicated cases to a higher level without any delay.
- c. Manage all type of emergencies - medical, surgical, obstetric, neonatal and paediatric patients by rendering first level care.
- d. Use rationally and efficiently essential drugs, infusions, blood or its substitutes.
- e. Use discreetly laboratory services and interpret them correctly.
- f. Demonstrate skills in monitoring of National Health programmes and schemes.
- g. Provide preventive and promotive health care services to the community.
- h. Develop leadership qualities to function effectively as the leader of the health termorganized to deliver health and family welfare services.
